

Arcos Industries - Quality Policy

All products provided by Arcos Industries; LLC shall conform to the requirements specified. All Arcos Employees are responsible for their input to the procurement, production, support, delivery, and management for the Arcos Quality Management System's success.

Arcos is committed to continually improving all products and to maintain status as the Quality leader in our field.

To achieve these goals, Arcos will pursue the following objectives:

- Provide its customers with the highest quality products.
- Provide timely delivery of products to meet customer requirements.
- Provide its customers with competitive pricing and value for product quality and performance.
- Provide open communications with its customers to meet customer's expectations.
- Provide a system of employee involvement, motivation, and training.

Arcos' Quality Program has been specifically designed to provide the framework to accomplish Arcos' quality objectives and to meet the requirements of International Standard ISO 9001, Mil-I-45208A, the applicable portions of the American Welding Society (AWS) standards and the applicable portions of Section III of the American Society of Mechanical Engineers (ASME) Boiler and Pressure Vessel Code.

The Manager of Quality Assurance has the authority and responsibility for definition, implementation, and maintenance of this quality program. This position has the responsibility to identify and record problems affecting quality and to require actions to prevent recurrence. This authority includes halting shipments or work in progress.

I approve of and authorize this Company Quality Policy for Arcos Industries, L.L.C.

Stan Merrick

General Manager – Arcos Industries, L.L.C.
